## Entreprise stratégique de fabrication d'armes et de munitions

L'usine d'armes et de munitions, située à seulement trois heures au nord-ouest de Bucarest, est un atout stratégique rare. Anciennement l'une des plus grandes installations d'Europe, sa véritable valeur réside non seulement dans son infrastructure, mais aussi dans sa construction, son zonage et ses licences, autant d'atouts qu'il faudrait des années pour reproduire. Associé aux permis d'exploitation de notre société, cela nous permet de commencer la production immédiatement, simplement en améliorant l'équipement et en activant l'installation.

Dans le paysage actuel de la défense, qui évolue rapidement, la modernisation des armes et des armements est essentielle. Notre approche garantit que les forces armées ont accès aux technologies et aux armements les plus récents, ce qui leur confère un avantage stratégique décisif. En tirant parti de cette installation, nous accélérons la mise sur le marché, réduisons les dépenses d'investissement et répondons à une demande mondiale croissante, tout en renforçant la sécurité nationale et régionale.

Alors que les fabricants traditionnels des États-Unis, du Royaume-Uni et de l'Asie s'efforcent de répondre à la demande mondiale sans précédent de munitions et d'armes, un groupe d'hommes d'affaires et d'entrepreneurs ayant une solide expérience militaire fait revivre l'une des plus grandes installations de fabrication d'armements au monde, stratégiquement située en Europe de l'Est.

### Localisation

L'usine d'armes et de munitions est stratégiquement située à 450 km de la frontière ukrainienne, dans une zone nouvellement développée. Elle se trouve à 60 km de la base de l'OTAN la plus proche, sur un embranchement ferroviaire et près d'un embranchement du Danube. Sa proximité avec le Danube permet un accès rapide à la mer Noire et aux infrastructures voisines des alliés de l'OTAN, ce qui offre des avantages logistiques et stratégiques considérables.
